

FOR IMMEDIATE USE

Agrifac wins Most Innovative Product of the Year 2020 in Poland

The Condor Endurance II with AiCPlus, a self propelled sprayer with intelligent camera system for spraying on plant level is awarded for the most innovative product of the year 2020. This award was given by the biggest portal for Polish Agriculture business - Farmer.pl to the manufacturer, Agrifac Machinery B.V. from the Netherlands.

This prize was awarded by the PTWP Group, the publisher of Farmer magazine and other agricultural websites.

The main aim of the competition was to distinguish ideas and activities that contribute to improving the conditions for the management and functioning of farm owners and managers. The selection of the award-winning products was made by the jury, consisting of well-known experts, scientists and journalists working on agricultural issues.

The self-propelled sprayer by Agrifac - Condor Endurance II is equipped with the AiCPlus system built of cameras mounted on the spraying boom, which processes and analyzes the collected information in real time. These are sent to the sprayer, which, thanks to the DynamicDosePlus system, sprays pointlike only in places where undesirable plants have been detected.

Krzysztof Sadowski, Sales Manager Poland, accepted the prize on behalf of Agrifac Machinery B.V.

End of pressrelease.
